Paid for with state funds. Available in alternate form by request.

Foreword

In December 2009, the Education Assessment and Accountability Review Subcommittee approved a research agenda for the Office of Education Accountability that included the *Kentucky District Data Profiles*.

This publication is intended to offer legislators and the general public a convenient source of information about each Kentucky school district. Wherever possible, longitudinal data are included to track trends over time. In addition, a dictionary of terms is included that defines each variable and identifies each data source. The publication will be updated annually.

Kentucky District Data Profiles

Introduction

The Education Assessment and Accountability Review Subcommittee approved the Office of Education Accountability's annual *Kentucky District Data Profiles* report in December 2009. The report provides a one-stop source of comprehensive district-level education data, including comparative data for all districts. The profiles are organized by the following topical areas:

- Overview and Trends
- Staffing
- Finance
- Performance

At the end of the district profiles, a Kentucky-wide profile is included for comparative purposes. This is followed by four tables that sort districts by adjusted average daily attendance, free and reduced-price lunch percentage, per-pupil state revenue, per-pupil property assessment, and junior composite ACT average for the 2009 school year. These tables are provided to allow profile users to identify similar districts for comparative purposes.

The Overview and Trends section provides data on school enrollment, end-of-year adjusted average daily attendance, student demographics, educational attainment, and school discipline. The data are provided in raw numbers and, in appropriate cases, percentages. In the Attainment subsection, the dropout data require a caveat; in 2006 the Auditor of Public Accounts completed a performance audit titled *Kentucky's Dropout Rate* that questioned the validity of the Kentucky Department Education's (KDE) dropout data.

The Staffing section includes district data on certified personnel, classified personnel, and full-time equivalent teachers. Additional data on average salaries for faculty and administration, years of teaching experience, and rank are provided. A data table that breaks down the salary schedule for teachers by rank completes the section.

The Finance section covers both per-pupil current expenditures and revenues by source. District data are contrasted to state averages for current expenditures by function. Revenues include federal, state, and local sources. Each district's contingency percent and end-of-year general fund balance is reported.

The Performance section includes data from EXPLORE, PLAN, and ACT, Advanced Placement exams and trends, and a breakdown of the 2008 Kentucky Core Content Tests.

The profiles use traditional fiscal year nomenclature to identify the appropriate year to which the data apply. For example, the 2008-2009 fiscal or school year is referred to as 2009, the 2007-2008 fiscal year is 2008, and so on. School district fiscal years start on July 1 and end on June 30. A total of 174 districts are profiled in the report. During 2008, Providence Independent merged with Webster County; therefore, Providence Independent is not included in the report.

Overall, the *Kentucky District Data Profiles* provide a basic snapshot of each school district. While additional data are available and useful, the data chosen were deemed to be the most concise indicators of district trends. Given differences in district size, geography, and socioeconomic conditions, the profiles are not conducive to direct comparisons of district effectiveness. The profiles present a broad array of indicators across multiple areas of interest. The Office of Education Accountability invites users of the profiles to provide feedback for future versions.

Use of the Profiles

KDE encourages districts to annually review data for inaccuracies. If KDE confirms data have been inaccurately reported, the data are changed and updated on KDE's Web site. As a result, the data in the Office of Education Accountability's annual *Kentucky District Data Profiles* report may vary slightly from year to year. The Data Dictionary section includes the date and source for each piece of data reported.

When possible, longitudinal data are presented in order to show trends over time. Sources for all the data used in the *Kentucky District Data Profiles* and the methodology used for calculating outcomes are included below.

In some cases, data are either missing or limited. The following symbols are used to designate missing or incomplete data:

- A dash indicates no data available for that year. Dashes are also used when a ratio measure, such as dropout percentage, is below 1 percent.
- N/A The data element N/A indicates no available data or not applicable. This may be the case when a district only offers kindergarten through grade 8. For example, Anchorage Independent does not have a high school; therefore, its profile does not contain ACT scores.
- 0 A data point that is zero reflects the lack of a count for that variable. For instance, a district may not levy a certain tax or may not have any migrant students. For both of those data points, a zero populates the field.

Data Dictionary

The data sources used in the *Kentucky District Data Profiles* are included below with brief definitions.

Overview and Trends

A1 Schools: The number of schools under administrative control of a principal or head teacher and eligible to establish a school-based decision making council. An A1 school is not a program operated by or as a part of another school.

Source: KY Dept. of Ed. School Category Listing. Unpublished CD-ROM, Aug. 2009.

EOY AADA: According to KRS 157.320 (1), the end-of-year adjusted average daily attendance is determined by the aggregate days attended by pupils in a public school, adjusted for weather-related low-attendance days, if applicable, divided by the actual number of days the school is in session, after the 5 days with the lowest attendance have been deducted.

Membership: Membership data are reported twice in the Overview and Trends section of the report. A pupil is a member of a class or school from the date of enrollment until the date of withdrawal. Membership data in the demographic profile table do not include exceptional children contained in the Superintendent’s Annual Attendance Report. Membership data under the student attendance bar graph include self-contained exceptional children but do not include preschool students.

Calendar: The number of instructional days and hours that children attend school. Regular days include any day that had at least 6 hours of instruction. Short days are early-release days not having at least 6 hours. Because schools within a district may have different schedules, a minimum and maximum number of instructional hours have been included for the district.

Demographic Profile

Free & Reduced-\$ Lunch: Children from families with incomes at or below 130 percent of the poverty level are eligible for free lunches. Those with incomes between 130 percent and 185 percent of the poverty level are eligible for reduced-price lunches. The percentage of students who receive free and reduced-price lunches was calculated by dividing the number of students receiving free and reduced-price lunches by the membership count under student attendance.

LEP: Limited English Proficiency refers to an individual

- (A) who is between ages 3 through 21;
- (B) who is enrolled or preparing to enroll in an elementary or secondary school;
- (C) (i) who was not born in the United States or whose native language is a language other than English;
(ii) (I) who is a Native American or Alaska Native, or a native resident of the outlying areas; and (II) who comes from an environment where a language other than English has had a significant impact on the individual’s level of English Language Proficiency; or
(iii) who is migratory, whose native language is a language other than English, and who comes from an environment where a language other than English is dominant; and
- (D) whose difficulties in listening, speaking, reading, or writing the English language may be sufficient to deny the individual—

- (i) the ability to meet the State's proficient level of achievement on State assessments described in section 1111(b)(3);
- (ii) the ability to successfully achieve in classrooms where the language of instruction is English; or
- (iii) the opportunity to participate fully in society.

Migrant: Children qualify for the migrant program because of the lifestyle of their parents, such as moving across school district, county, or state borders or between the United States and Mexico for the purpose of seeking temporary and/or seasonal employment in agriculture or commercial fishing. Children must move with their parents or move to join their parents within 365 days of the qualifying move of the parents. Children may also qualify if they move without their parents and are seeking temporary and/or seasonal employment in qualifying activities.

Dropouts: Individuals, grades 9-12, who

1. were enrolled in school at some time during the previous school year;
2. were not enrolled at the beginning of the current school year;
3. had not graduated from high school or completed a state- or district-approved educational program; and
4. had not met any of the following exclusionary conditions: transferred to another public school district, private school, or state- or district-approved education program; were temporarily absent due to suspension; or were deceased.

Utility Tax: A utility gross receipts license tax not to exceed 3 percent of the gross receipts derived from the sale of communications services; electric power; water; and natural, artificial and mixed gas.

Occupational Tax: An occupational license tax not to exceed 0.5 percent or 0.75 percent for counties with 300,000 or more residents on salaries or wages of individuals for work done in a county, and on the net profits of all businesses, professions, or occupations from activities conducted in a county.

Original Growth Nickel: School districts meeting the criteria in KRS 157.621 can levy an additional 5-cent tax for building-fund needs. Tax revenue from this source is not equalized by the state. Districts must hold a public hearing prior to levying the growth nickel.

Source: KY Dept. of Ed. 2008-09 Local District Tax Levies. <<http://education.ky.gov/KDE/Administrative+Resources/Finance+and+Funding/School+Finance/SEEK+and+Tax+Rates/Taxes.htm>> (accessed May 27, 2010).

Equalized Growth Nickel: Districts that continue to meet the growth criteria have the option to levy a second growth nickel. This second nickel is referred to as the equalized growth nickel because the General Assembly has provided additional equalization funding for those districts that have levied both the original nickel and the second growth nickel.

Source: KY Dept. of Ed. 2008-09 Local District Tax Levies. <<http://education.ky.gov/KDE/Administrative+Resources/Finance+and+Funding/School+Finance/SEEK+and+Tax+Rates/Taxes.htm>> (accessed May 27, 2010).

Recallable Nickel: School districts have the opportunity to levy a 5-cent tax for building needs. This tax, the recallable nickel, is subject to public petitions for recall and has historically received retroactive equalization.

Source: KY Dept. of Ed. 2008-09 Local District Tax Levies. <<http://education.ky.gov/KDE/Administrative+Resources/Finance+and+Funding/School+Finance/SEEK+and+Tax+Rates/Taxes.htm>> (accessed May 27, 2010).

Levied Equivalent Rate: Because local school districts use and implement different types and amounts of taxes, KDE converts the districts' local tax efforts to a standardized tax rate called a levied equivalent rate. The rate is a district's total tax revenue divided by its total assessment, which includes property and motor vehicles.

Source: KY Dept. of Ed. 2008-09 Local District Tax Levies. <<http://education.ky.gov/KDE/Administrative+Resources/Finance+and+Funding/School+Finance/SEEK+and+Tax+Rates/Taxes.htm>> (accessed May 27, 2010).

Equalized Facility Funding: School districts that have levied at least a 10-cent equivalent tax rate for building purposes or have debt service of at least a 10-cent equivalent tax rate as of February 24, 2005, receive equalization for 20 years provided they receive no other nickel equalization other than the Facilities Support Program of Kentucky.

Per-pupil Assessment: Assessment divided by EOY AADA with growth. The assessment contains property valuations for real estate, personal property, public service real estate, public service personal property, and motor vehicles. The assessment is certified to the Kentucky Department of Education by the Department of Revenue.

SEEK Distribution: The Support Education Excellence in Kentucky funding formula was enacted as part of the 1990 Kentucky Education Reform Act and is distributed on a per-pupil basis (known as the guaranteed base). Districts receive additional funds (called add-ons) for at-risk students, exceptional students, home and hospital instruction, students with limited English proficiency, and transportation.

Performance

EXPLORE, PLAN, and ACT: The Educational Planning and Assessment System (EPAS) data used in the *Kentucky District Data Profiles* are from the 2009 school year. In 2006, Senate Bill 130 mandated, beginning with the 2009 school year, that all Kentucky public school students be required to take the EPAS tests administered by ACT, Inc. Eighth-grade students take EXPLORE, 10th-grade students take PLAN, and 11th-grade students take the ACT. The EPAS series of exams is designed to help students measure their current academic development, explore career/training options, and make plans for the remaining years of high school and post-graduation years. ACT data reflect the total number of public school examinees and exclude private schools.

ACT exam results are reported for two groups: high school graduates who took the ACT voluntarily, as in past years, and 11th graders who were mandated to take the ACT in conformance with SB 130.

The average EPAS results for English, reading, math, and science, and the composite score are reported in the profiles. EXPLORE, PLAN, and ACT scores are also broken down by the percentage of district students meeting or surpassing ACT, Inc.-derived college readiness benchmarks, listed below.

Portion of EPAS Test	EPAS Score		
	EXPLORE	PLAN	ACT
English	13	15	18
Reading	15	17	21
Mathematics	17	19	22
Science	20	21	24

AP Analysis: Advanced Placement (AP) test scores range from 1 to 5; and scores of 3 or above are considered eligible for college credit (passing). The average AP exam score and the percentage of students passing an AP exam are reported. Students in the 10th grade or higher are eligible to take AP exams.

Kentucky Core Content Tests: A major component of the Commonwealth Accountability Testing System. The profiles provide results in the subject areas of reading, mathematics, science, and writing. Results of these tests are used to evaluate the school program in the state accountability system. The results from the reading and math content areas are also used to meet federal testing and reporting requirements of the No Child Left Behind Act.
